# 2011 **NAKED**

The specific details of this brochure do not apply to any particular product supplied or offered for sale. Manufacturers reserve the right to vary specifications, including colours, with or without notice at such times in such manner as deemed appropriate. Major as well as minor changes may be involved. Every effort, however, is made to ensure the accuracy of the particulars contained in this brochure. Consult your Dealer for details regarding the specifications of any featured product. This publication shall not constitute - under any circumstances whatsoever - an offer by the Company to any individual. All sales are made by the Distributor or Dealer subject to and with the benefit of the standard Conditions of Sale and Warranty provided by the Distributor or Dealer, copies of which may be obtained upon request. This publicity material conforms to the UK-only Trade Descriptions Act (1968). While efforts are made to ensure specification accuracy, brochures are prepared and printed several months in advance of distribution and consequently cannot always immediately reflect either changes in specification or in some isolated cases the provision of a particular feature. Customers are always advised to discuss specific details with the supplying Dealer, especially if a selection is dependent upon one of the features advertised. Please note that the fuel consumption figures provided are results obtained by Honda under standardised testing conditions prescribed by WMTC. Tests are conducted on a rolling road using a standard version of the vehicle with only one rider and no additional optional equipment. Actual fuel consumption may vary depending on how you ride, how you maintain your vehicle, weather, road conditions, tyre pressure, installation of accessories, cargo, rider and passenger weight, and other factors.

**RIDE WITH STYLE** Read the owner's manual thoroughly. Get to know your machine and its capabilities. Concentration assists anticipation. Observe other road users' movements. Brake in plenty of time. Wear quality kit, ride fit and NEVER after drinking alcohol. Good roadcraft and courtesy identify the skilled and stylish rider. Honda endorse the law that all helmet visors must comply with BS 4110. Visors that transmit less than 50% of visible light cannot legally be used on the road.

*MACHINES WITH ATTITUDE. SHEER RIDING ENJOYMENT.*

Honda motorcycles offer you the essence of motorcycling in its purest form. Exceptional all-rounders from the fun and friendly CBF125 to the high adrenalin, high powered CB1300S and CB1000R.

# NAKED

# CB1300S

**EXHILARATING POWER. REFRESHING SIMPLICITY. INTENSE PERFORMANCE.**

With muscular styling centred around a stunning DOHC fuel-injected inline-four powerhouse, the CB1300S is a flagship model in Honda's stable. Acceleration is strong and exhilarating while power delivery is always smooth and responsive. In spite of its imposing size, the CB1300S's broad, low, stepped seat, more upright seating position and light, effortless handling mean it's incredibly enjoyable to ride. High performance suspension systems contribute to control and comfort, while the standard Combined Anti-lock Brake System provides superbly balanced stopping power.

## SPECIFICATION

**Engine:** Liquid-cooled 4-stroke 16-valve DOHC inline-4

**Displacement:** 1,284 cm<sup>3</sup>

**Max. Power Output:** 84 kW / 7,750 min<sup>-1</sup> (95/1/EC)

**Max. Torque:** 116 Nm / 6,000 min<sup>-1</sup> (95/1/EC)

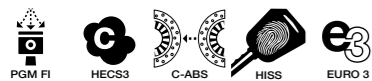

**Kerb Weight:** 271 kg (F: 134 kg; R: 137 kg)

**Fuel Tank Capacity:** 21 litres (incl. 4.5-litre warning light reserve)

**Seat Height:** 780 mm

**Ground Clearance:** 125 mm

**Dimensions (LxWxH):** 2,200 x 795 x 1,205 mm

# CB1000R

**CAPTIVATING PRESENCE. SPORTS PERFORMANCE. EFFORTLESS CONTROL.**

Lean, mean and muscular – and packing the punch of full-blooded litre-class Super Sports. That's the CB1000R. Its compact RR-derived engine delivers awesome power with an exciting focus on low to mid-range torque. And with Super Sports-derived suspension and brakes, handling is everything you would want – quick and precise. The suspension is also fully adjustable so that you can fine-tune the ride feel to your personal preference.

Every component is engineered to perfection. Cutting-edge technology with precision engineering – matched only by the CB1000R's styling. This is an eye-catching bike with real attitude. A true performer that anyone can enjoy.

# CBF1000F

**SUPER SPORTS POWER. NAKED DELIVERY. AGILE AND LIGHTWEIGHT**

The Honda CBF1000F takes the CBF ethos of versatile motorcycling enjoyment another step forward. With sporty styling and an attractive new ergonomic design, the CBF1000F is renowned for its comfortable ride, easy handling and impressive fuel economy.

The CBF1000F can be easily adjusted for solo sporty rides or long hours of comfortable riding on weekend tours for both rider and pillion. The top-quality suspension systems and the lightweight sturdy aluminium main frame, deliver predictable, sure-footed handling, regardless of riding style or level of experience. The Combined-ABS balances front and rear brake control for smooth operation whilst also providing extra reassurance for unexpected or extreme situations.

## SPECIFICATION

CBF1000

# CBF1000

**REAL-WORLD THRILLS. ACCESSIBLE POWER. ENDLESS ENJOYMENT.**

The CBF1000's powerhouse is based on the same race-proven inline-four engine as the Fireblade. Its ease of operation and responsiveness make it both easy and inspiring to ride. Smooth acceleration is delivered just where you need it, complemented by first-rate chassis, suspension and brakes that contribute to its swiftly responsive handling.

With a 19-litre fuel tank and superb fuel economy, the CBF1000 lends itself readily to touring, commuting and everything in between. Its adjustable seat, handlebars and fairing mean custom-fit comfort for riders of all styles and sizes. This friendly favourite is a winning choice for anyone who needs high-performing daily transport with a big focus on fun.

The CBF1000 is also available as a GT version, with colour-matched fairing, top box and pannier set.

# VT750S

**IMMEDIATE APPEAL. EXHILARATING ACCELERATION. ALL-ROUND ENJOYMENT.**

The VT750S combines easy handling, comfort and satisfying power with streetwise styling that stands apart. Designed for all-round enjoyment, its light, agile handling, sleek proportions with a low seat height and natural upright seating position will appeal to all kinds of riders – relative newcomers and experienced riders alike.

The 745cc liquid-cooled V-twin engine is built to pump out strong, satisfying and controllable power over a broad rev range. Versatile power for quick weekend blasts or light touring and with low fuel consumption it's ideal for everyday transport or trouble-free commuting. Solo or two-up, the VT750S is built for good times and is everything you'd expect from an all-rounder with attitude.

## SPECIFICATION

**Engine:** Liquid-cooled 4-stroke 6-valve SOHC

**Displacement:** 745 cm<sup>3</sup>

**Max. Power Output:** 31.7 kW / 5,500 min<sup>-1</sup> (95/1/EC)

**Max. Torque:** 61.8 Nm / 3,250 min<sup>-1</sup> (95/1/EC)

# CB600F HORNET

**SPORTS PERFORMANCE. EASY HANDLING. EDGY ATTITUDE.**

Updates to the Hornet have always been based on rider feedback. So, in 2011, our mission was to push the modern and aggressive styling even further. The result is the classic Hornet attitude you're used to but with an all new, all digital instrument panel to improve usability and a higher tail that emphasises the lightweight look and razor sharp performance.

The lightweight, aluminium frame and swingarm contribute to sharp, balanced handling and smooth, precise response to rider input. Wide, low-profile Super Sports-derived tyres, mounted on lightweight wheels, add to the aggressive streetfighter styling and ensure high-speed cornering control. The brakes are designed to match the bike's sporty performance, with highly advanced Combined Anti-lock Braking System offering extra reassurance. The perfect ally!

# CBF125

**COMPACT CONVENIENCE. PEERLESS PRESENTATION. INSTANT FUN.**

The CBF125 has already established a reputation for comfort, high quality and remarkably low running costs. The fuel-injected engine delivers ample power and torque for a ride feel that's both satisfying and confidence-building. Top-quality suspension components add to the confident handling and plush ride feel, even when carrying a passenger.

The aerodynamic bodywork integrates an attractive half-cowl with a small, tinted windscreen that offers the comfort of wind protection at higher speeds. Raised handlebars and a low seat height make the CBF125 riding position natural and comfortable, allowing a clear view of the road ahead. Sporty, sleek and modern, the CBF125 has a style and character unlike others in its class.

# THE POWER OF DREAMS

The first product to bear the Honda name was an auxiliary engine for bicycles. Adding power to the bicycle made life a bit easier for people, and made getting around more fun. Right from the beginning, Honda was about creating things that people truly need – things that had never before existed. This takes independent thinking, audacity and imagination to follow ideas wherever they lead. It also takes determination; the passion, tenacity and innovation to never allow the dream to die, and to shape dreams into products for the world.

To realise this dream as the world prepares for a low-carbon future, Honda is leading the way in addressing the needs of people all over the globe with advanced fuel infrastructure. From bikes to cars, boats to planes, and even to the way we fuel our homes and workplaces, our passion for innovation and our desire to make life better for all just goes from strength to strength.

Honda is proud to be a founding signatory of the European Road Safety Charter. Committed to enhancing the joy of two-wheels and leading the way in road safety.

## GLOSSARY

Honda has developed many innovative technologies for its motorcycling range, designed to have the greatest possible benefit for you and the world around you.

### Combined Antilock Brake System

Optimises the balance of front and rear braking control while counteracting tyre slip when braking over variable road conditions.

### EURO-3

Complies with EURO-3 emissions regulations.

### Honda Evolutionary Catalysing System

Oxygen-sensing system maintains an optimal air/fuel mixture for the most effective catalytic reduction of exhaust emissions.

### Honda Ignition Security System

Only allows the bike to be started by its original encoded keys to effectively protect against theft.

### Honda Multi-Action System

Cartridge-type front fork and rear damper design ensures a confident balance of compliant damping and precise handling.

### Programmed Fuel Injection

Map-type computerised system maintains strong power and responsive performance in all conditions.
